TAMPA, FL – Bayshore Patriots, Inc. announced today that all speakers and musicians have been confirmed for **Flags Along The Bayshore: Tampa Remembers 9/11** and for the first time in history, the entire Bayshore will be wired for sound (4.5 miles).

In addition to a welcome by the Bayshore Patriots, speakers confirmed for the event include Dick Greco – Mayor, City of Tampa; Jeb Bush – Governor, State of Florida and General Tommy Franks – Commander, United States Central Command.

Musicians leading participatory music in the program include the Tampa Oratorio Singers, under the direction of Nancy Callahan, accompanied by the Florida Brass and Percussion Ensemble; Project Entertainment, The Florida Arts School; Rick Brown, Tampa Fire Rescue and The Berkeley Preparatory School's Pipe and Drum Corps.

Flags Along the Bayshore has been born out of the efforts and deeds of a group of Tampa residents, who responded to the tragic events of 9/11/01 by going out on Bayshore Boulevard to proudly hold their American flag in honor of those lives lost on 9/11/01 and in support of their country. As we have all struggled to understand and make sense of the horror of 9/11/01, this group of dedicated Americans has continued their patriotic display on Bayshore Boulevard near Bay to Bay every Friday afternoon since last September.
